

Flat File/Rasp

- Commonly applied to metal, woodworking, arts and crafts and glass and marble work, these files are used to cut fine amounts of material from a workpiece.
- Features second cut on both sides, special design that is suitable for filing iron and steel.
- Strong file or rasp handles, made of selected timber and reinforced with a ferrule and hidden spring to prevent splitting and detachment.

Code	Handle Length (mm)	Files Dimension (mm)
FR140.250	140 mm	250 x 25 x 6 mm

Half Round File/Rasp

- Half round cross section allows use on convex and concave surfaces.
- Features second cut on both sides, special design that is suitable for filing iron and steel.
- Ideal for garages, factories, engineering, workshop and DIY use.
- Strong file or rasp handles, made of selected timber and reinforced with a ferrule and hidden spring to prevent splitting and detachment.

Code	Handle Length (mm)	Files Dimension (mm)
FHR140.250	140 mm	250 x 25 x 6 mm

Round File/Rasp

- Commonly applied to metal, woodworking, arts and crafts and glass and marble work, these needle files are used for filing round holes.
- Features second cut all round, special design that is suitable for filing iron and steel.
- Strong file or rasp handles, made of selected timber and reinforced with a ferrule and hidden spring to prevent splitting and detachment.

Code	Handle Length (mm)	Files Dimension (mm)
RF140.250	140 mm	250 x 25 x 6 mm
