

**HANABI's double insulation structure hot air gun ideal for removing paint, bending plastic pipes and multitude of other domestic uses. Moulded-in handle for ease of use, with powerful 2000W heating element.**

## Features

- Compact and lightweight for easy handling.
- Equipped with double insulation electronic temperature control.
- Suitable for paint stripping, soft soldering, removing sticky labels and defrosting frozen pipes.
- Fitted with BS approved 3-pin safety plug.
- Suitable for continuous professional use.
- These safe stand-free hot air guns can be applied on numerous tasks thanks to stable stationary positions and rubber insert standard on these heat guns.
- Variable temperature control with full regulation allows versatile use even over long working periods.
- The hot air gun is fitted with a powerful 2000w motor plus optimum cooling enables working in tight corners and hard to reach places.
- The closed grip and ergonomic handle shape makes handling easy, safe and effortless over long periods.

## Specifications

- Power Input: 2000W
- Voltage: 230V ~ 240V
- Frequency: 50Hz
- Temperature Adjustment setting: Double Insulation Structure
- Power Input: 1500W
- Voltage: 120V
- Frequency: 60Hz,
- Operating Temperature:
  - I: 250° C, 250L/min
  - II: 550° C, 550L/min
- Cable length: 1.8m

## Warranty

All Hanabi machineries carry a one (1) year limited warranty against manufacturing defects.
