Teamboard / Qwizdom Voting System

For Primary, Secondary and Tertiary Education

Qwizdom Student Response Systems enable you to:

✓ **Save Time**

Students work at their own pace on paper-based activities. Automatically grade homework and tests.

Draw from thousands of free lessons and question sets or use your own existing material.

✓ **Engage Students**

Everyone participates during classroom activities. Even shy students can request help discreetly. Interactive games make learning fun and create healthy competition for everyone involved. You can perform small group and individual activities and tests to keep students focused.

✓ **Get The Data You Need**

Instantly know if your students understand what is being taught. Generate standards-mastery and performance reports for the whole class or individual students.

✓ **Lead a 21st Century Classroom**

Work seamlessly with your existing print or digital materials. Pose dynamic questions 'on-the-fly'.

Use with your TeamBoard interactive whiteboard.

✓ **Improve Learning**

Use private feedback (through instructor devices) to help guide students to understanding. Improve learning and state test scores by more than 20% (details at qwizdom.com.au).

Benefits Of Using Qwizdom Response Systems for Interactive Assessments and Voting:

- Combine response system interactivity, customized presentations, formative assessments, and online reporting into one complete solution
- Engage, motivate, and empower each individual student
