VeeVaa's high quality manual projector screen fits easily into your classroom or meeting room. A universally acceptable matte white or glass beaded screen surface distributes light evenly over the largest viewing area. It provides vibrant, bright colours with no hue shift or distortion. The manual screen can be mounted directly to the wall with two (2) hooks. L-shape brackets are available to position the screen away from the wall, providing clearance for a whiteboard. The screens are available in square (1:1), video (4:3) or wide (16:9) format.

PRODUCT SPECIFICATION

| Model No | Screen Size (Millimeter) | Screen Size (Inch) | Screen Size (Feet) | Square Format |
